

In 2006, ELG was the first special education program in Shanghai, and its founders were true pioneers. Today, ELG has grown into an amazing organization with over 70 employees, providing a wide range of services, with talented Chinese and international staff from 17 countries and as many cities in China. None of this would ever have been possible without Shari's enthusiastic personality and belief in the need to provide services; without Monte being willing to quit his full time job to dedicate his time to the endeavor; without Andrew's persistence and knowledge; and without Rodney willing to lead as Principal. As we pass over 10 years in business, it is a great time to reflect on the accomplishments. So many people said this would all be impossible – through hard work, persistence, and believing in the cause, they made the impossible possible.
